

HOTEL FIRE CLAIMS FIVE

Aliens Who Were to Sail Today For Their Homes in Europe Lose Lives—All Guests Injured Lose Their Savings of a Life Time

New York, July 1.—Five persons were killed, and twenty or more seriously injured, in a fire which destroyed a hotel at 65 Greenwich street in the downtown section, late last night, where all aliens who had been booked to sail from New York today for their homes in Europe. The bodies, which were removed to a police station early today, were those of three unidentified men, a woman and a child. They lost their lives in almost the twinkling of an eye when the ancient three-story brick building was crumpled by the flames.

There were nearly 75 lodgers in the house, most of whom had come from other cities and had been provided with lodging there by a steamship agent who was arranging for their passage to Europe. The little building was so crowded that six or more lodgers were placed in a single room. Many were burned as they dashed through the flames in the hallway and were forced to leap to further injury as they landed on the pavements below. At least half a dozen were placed on the dangerous list at the hospital.

Those who escaped left their clothing and money behind and it is believed that several thousand dollars in bills, representing the total savings of many of the aliens, was burned.

The police began an investigation of the fire today as its origin was aroused by the fact that another fire of unknown origin which was easily extinguished occurred in the hotel only the night before.

AUTOISTS TO START WEST

Indianapolis Tourists Will Begin Overland Trip Today in 22 Cars—Expect to Reach Los Angeles August 2—Will Visit in Ogden

Indianapolis, July 1.—Twenty-two automobiles carrying a hundred or more persons are to start from here this afternoon on a tour to the Pacific coast in support of the proposed Lincoln transcontinental rock highway to stretch from New York to Los Angeles, Cal. The tour is said to be one of the greatest ever taken both in length and magnitude of purpose.

The caravan expects to reach Los Angeles on August 2 and will remain here until August 6, when the return trip by special train will be started. The route selected will take the motorists over 3575.1 miles of highway.

A number of speakers, including Charles A. Bookwalter, former mayor of Indianapolis, will address meetings at practically all stops.

The governors of some of the states have arranged to accompany the caravan through their states, including Governors Major of Missouri, Ammons of Colorado, Spry of Utah, and Oddie of Nevada.

Governor Johnson of California plans to meet the tourists at the edge of his state and remain with them until the special train starts with them for home.

The highway, the plan for which originated with Carl G. Fisher, millionaire sportsman of this city, is to be built by popular subscription. Of the \$10,000,000 needed, \$4,000,000 already has been subscribed.

Matchmakers never set the world on fire.

Truth alone wins

There is a big difference between mere claim and delivery.

Some coal dealers claim their coal to be best.

But tests show such is not the case.

Analytical and British Thermal Unit trials prove there is only one BEST coal and that is "Aberdeen."

It runs over 95 per cent actual fuel and exceeds all other western coals in heat units produced.

For further evidence of its superiority, we refer you to the biggest fuel consumers in the west.

They know, and burn "Aberdeen."

You'll find it worth your while to burn it, too. Order a ton today.

Any dealer will supply you.

Aberdeen Coal

Mined by the Independent Coal & Coke Co. at Kentworth, Utah. C. N. Brewster, Pres. and Gen. Mgr.; J. H. Peterson, Vice Pres.; Treas.: F. A. Druehl, Secretary.

Money Saving Sale

The Greatest Success Ever

Our Big Sale is now on in full blast, and today, hundreds of pleased customers profitted by taking advantage of the reduced prices on summer shoes. If you haven't already called—come at once—you will be surprised and delighted with the many pretty shoes and pumps we are selling below cost. Notice prices below.

NOTICE:

WE WILL BE OPEN UNTIL SEVEN O'CLOCK EVERY NIGHT THIS WEEK

EXTRA SPECIAL

ASSAULT ON JNO. M'GRAW

Pitcher Brennan Makes Cowardly Attack on Manager of the Giants—League Executive May Be Suspended For Some Time

New York, July 1.—Although no complaint has been filed as yet it was stated today at National league headquarters that President Lynch would investigate the mixup between Ad. Brennan, pitcher of the Philadelphia club, and John J. McGraw, manager of the New York Giants, after the game in Philadelphia yesterday. The league executive, who has been absent from his office for several days owing to the death of his sister, was expected back in New York late this afternoon.

Makes Vicious Assault.

Philadelphia, June 30.—Manager John McGraw of the New York Giants was the victim of a vicious assault after today's game and is tonight wearing a bad bruise over his left ear. It is believed that Pitcher Ad. Brennan of the Phillies will be suspended for knocking the Giants' manager down, but the person who kicked McGraw as he was about to rise from the ground is not known. There is much indignation among local fans over the incident.

At the close of today's game, which was long and bitterly fought, McGraw was walking to the dressing room arm in arm with Manager Doolin of the Phillies. Doolin had just asked McGraw what was the cause of an argument he had with Umpire Klem, when Pitcher Brennan, who, according to Catcher Hartley of the Giants, was walking in front of McGraw, turned suddenly and struck the New York manager a fierce blow on the jaw, which sent him to the ground. As McGraw was struggling to get up, some one in the crowd of players from both sides that was making its way to the dressing rooms, kicked him just above the ear. McGraw was dazed for a minute, but was all right again when assisted to his feet.

The assault was witnessed by a large crowd of spectators that was passing across the field, but nobody seems to know who kicked the Giants' leader.

McGraw takes the matter philosophically. He will make no charges, "It reminds me of old times," said McGraw.

Players who had quickly pulled Brennan away declared that only two blows were struck. McGraw soon re-

covered and went back to his hotel. Brennan declares that he was exasperated beyond the limit of endurance by taunts directed during the game by the New York manager at members of the local team.

DRASTIC LIQUOR LAW IS EFFECTIVE

Washington, July 1.—The Jones-Works excise law, the most drastic liquor law ever designed for the district of Columbia, went into effect today. Under its terms not a drop of intoxicating liquor of any kind can be purchased in the National capitol between the hours of 10 o'clock at night and 7 o'clock in the morning on Sunday. The law is equally as rigid with the exclusive clubs as with the corner saloon.

As a direct result of the going into effect of the law Frank J. Kenney, a saloon keeper in the morgue, a suicide. Under the terms of the new law Kenney feared he would lose his place of business and after brooding the fact for several days took poison. His place will be closed.

AWAIT OUTCOME OF TARIFF BILL

New York, July 1.—"The light of the world," a \$10,000 window made in London for the sanctuary of the Cathedral of St. John the Divine, is being held in the customs house here until the cathedral authorities learn the status of the tariff on windows. The present duty is 45 per cent, meaning \$4,500 on the window, but under the new bill the duty would be only 15 per cent. It is proposed that the window be left in the hands of the customs authorities until the fate of the new tariff bill is decided, but it has not yet been learned if this can be done.

The window is said to be one of the largest and finest ever seen in America. It portrays Christ in heroic form with the archangels around him.
